

LARGE FLUSH NEXGEN-HYBRID™ WOOD BURNING INSERTS

OUR CLEANEST BURNING LARGE WOOD INSERT

The Large Flush NexGen-Hybrid™ Wood Insert is a great option for those looking to upgrade their old, inefficient fireplace. It features a sleek, flush design, a big, beautiful fire viewing area, and concealed convection fans that increase the transfer and circulation of heat throughout your home.

NexGen-Hybrid™ Technology provides cleaner, longer burns, higher efficiencies and more heat into your home. This makes the Large Flush NexGen-Hybrid™ Wood Insert one of the most efficient and cost effective ways to heat your home, even if the power goes out.

Here are just a few benefits you'll love about the Large Flush NexGen-Hybrid™ Wood Insert:

- Cleaner burns with lower emissions than traditional wood inserts.
- Massive 2.7 cubic foot firebox accommodates logs up to 24 inches long, which allows you to burn more wood efficiently and for longer burn times.
- Bypass damper helps to prevent smoke-backs during loading and reloading.
- Single operation air control gives you full range of control over the burn rate (low, medium, and high).
- Huge fire viewing area with beautiful arched and rectangular door designs.
- Optional GreenStart® Igniter makes starting your wood fires as easy as pushing a button!
